CyWee Group Unveils the Latest in Motion Processing and AirStream™ Technology

CyWee introduces the QWERTY TV Remote, AirStream HD, MPAD, and Indoor Navigation.

TAIPEI, Taiwan -- March 1, 2012 -- CyWee, a leader in motion processing and wireless video delivery, will be showing its full range of solutions for consumer devices at CEBIT in Hanover, Germany, March 6th-10th, located in Hall 17, Booth J06. CyWee's technologies are empowering consumer devices from mobile devices to TV remotes.

Among the breakthrough technologies on display is the new QWERTY TV Remote. This new remote designed for use with Smart TVs and set-top boxes is easy to use, plug-and-play, and provides motion control for immersive gaming. The QWERTY TV Remote features a full keyboard, motion module, and a built-in microphone. Based on RF protocol, the QWERTY TV Remote achieves absolute position through Sensor Fusion Algorithms. Play apps, make voice calls, navigate menus, and write messages using the QWERTY TV Remote.

AirStream technology enables users to wirelessly stream HD movies and games from smartphone, tablet, or notebooks to large screen HDTVs. The AirStream HD is a plug-and-play device that enables users to stream high definition content from their mobile devices to the TV. The mobile accessory supports Android, iOS, Windows, and Mac OS devices.

CyWee will demonstrate a full suite of technologies across several products.

- **QWERTY TV Remote:** The QWERTY TV Remote is an ideal remote controller for your set-top box or Smart TV system. The TV Remote offers consumers exceptional precision for immersive gaming and menu navigation.
- **AirStream HD:** AirStream HD is a mobile accessory for HDMI smartphones and tablets. Experience HD content streamed from your mobile to the HDTV in real-time. Enjoy HD movies and games displayed on the big screen.
- **MPAD:** The MPAD is a tablet that wirelessly streams content in 1080p in real-time. With a touchscreen display that also functions as a remote, control your home media PC from the comforts of your couch.
- **Indoor Navigation:** Determine indoor locations accurately with CyWee's indoor navigation solution for mobile devices.

To schedule a meeting with CyWee at CEBIT, contact sales@cywee.com. For more information about CyWee's products, please visit www.cywee.com.
