

Computex 2011 Invitation

CyWee Group Ltd. cordially invites you to join us for Computex 2011 from May 31st to June 4th. We will be showcasing our portfolio of wireless streaming and motion processing technologies. Some of this year's featured products include:

- **Air Shuttle**: is the first real-time wireless streaming mobile accessory, made for iPod, iPhone and iPad. This product is the first of its kind and has received a positive response from the market. Come check out what the buzz is about.
- **High Definition Wi-Fi Dongle**: Experience high definition content streamed wirelessly from your mobile device to the TV in real-time. This next generation HD dongle product supports Android, iOS, and Symbian mobile operating systems.
- **Motion Processing Solutions**: Come see how CyWee is pioneering the next generation of motion processing products. We offer a complete range of sensor solutions and evaluation test services.
 - o **CWGD**: is a low-power-three-axis angular rate sensor fit for sensor fusion implementation.
 - o **CWMI**: is an ultra-compact high performance E-compass module.

Location: Nangang Exhibition Hall, Booth N1219

Opening Hours: 9:30 am – 6:00 pm

Duration: May 31-June 4, 2011
