CeBIT 2011 Invitation

CyWee Group Ltd. cordially invites you to join us for CeBIT 2011 from March 1st to 5th in Hanover, Germany. We will be showcasing our latest portfolio of wireless and motion technologies. Included amongst our product demonstrations will be the Best of CTIA Fall 2010 Winner, the CyWee Air Shuttle.

Wirelessly Stream Audio and Video to Your TV

CyWee's "Air Shuttle" is the first and only MFi-certified accessory that enables real-time audio and video transmission from an iPod®, iPhone®, or iPad™ without using a cable. In addition to the MFi models, we will also be displaying demo units running on the Symbian OS.

We sincerely invite you to check out our Air Shuttle product line that enables the streaming, sharing, and enjoyment of content on your mobile device to the big screen. We look forward to seeing you!
